

## **2018 Community Leader Agency Award**

### **Leadership Buffalo**

Founded in 1988, Leadership Buffalo truly has been “*Making Buffalo Better*” for 30 years. With its emphasis on collaboration and its commitment to inclusion, Leadership Buffalo has helped empower more than 3,000 corporate, civic, non-profit, and youth leaders with the skills, knowledge, networking, and experiences needed to guide this area to a better future.

Through its five programs, Leadership Buffalo works to unite leaders to take action in WNY. Whether in the Class Experience, Rising Leaders, Experience Buffalo, Youth Leadership, or LB Revisited program, participants explore the challenges, concepts, complexities, and best practices of leadership around important issues. Through seminars, workshops, lectures, hands-on work and dialogue sessions, this program creates allies among leaders from diverse backgrounds and increases their knowledge of community issues, broadens their vision, and enhances their ability to lead.

For its commitment to fostering inclusive leaders, educating individuals and providing them with the resources to make a difference, the NFJC is proud to present Leadership Buffalo with the 2018 Community Leader Agency Award. Accepting this award for Leadership Buffalo is its dynamic President, Althea Luehrsen.

*"...a just community begins with me!"*
