Bobby Anderson

*Bio*

*Bobby Anderson*

This celebrated local chef is the founder and CEO of F BITES, or Food Based Interventions with Technology, Energy & Science, which has been providing education in culinary arts and life skills since 2009. Anderson started this as an after-school program for high school students. Bobby has grown this successful and life changing program into one that also provides summer outreach, workforce development training, and career opportunities to incarcerated learners. F Bites educational programming is offered in conjunction with Niagara County BOCES, which Bobby conducts in schools and community centers around Niagara Falls. This is a labor of love for Bobby, giving him the chance to not only pay it back the community, but by helping create job opportunities and successful young leaders, pay it forward.
